Who We Are

Since 2002 Hybrid Solutions has committed to provide the best technologies for brokers and traders from front to back end by providing the award-winning platform VertexFX. All traders configuration can be done easily through the Multi-Level-Management (MLM) from the Backoffice without the need of going through each client to increase your bottom line.

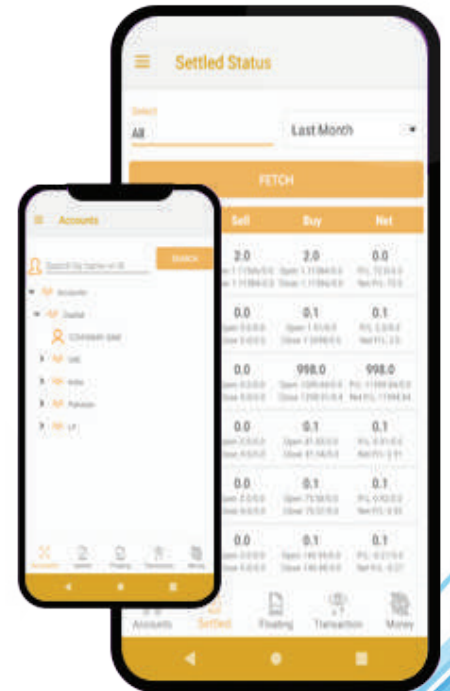

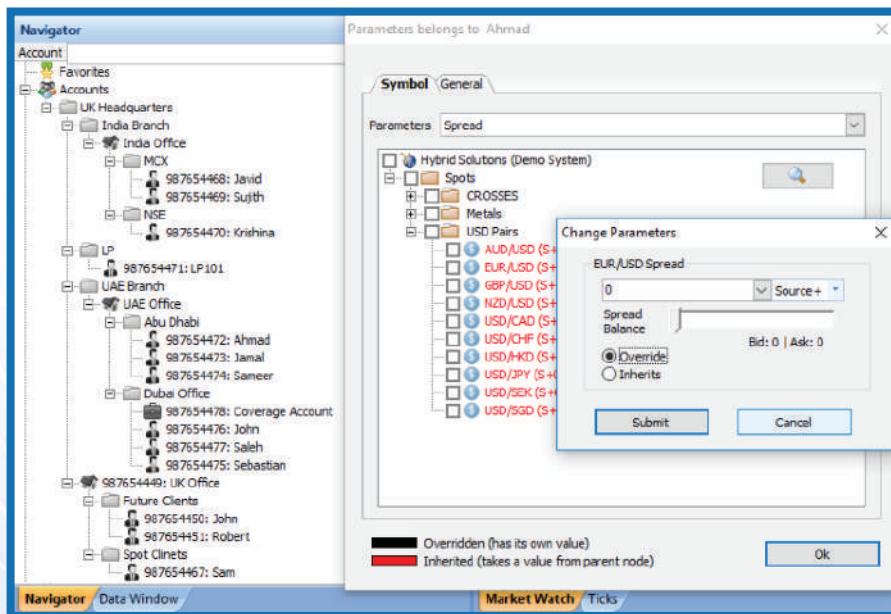

Connect your VertexFX to any pricing feed you prefer to stream the prices to your clients in real time. Clear all your clients' orders/positions easily through VertexFX Bridge.

VertexFX can be implemented in scalable plans based on the business size on different plans: Full system dedicated host, shared hosting white label, cloud-based, and dealer leasing.

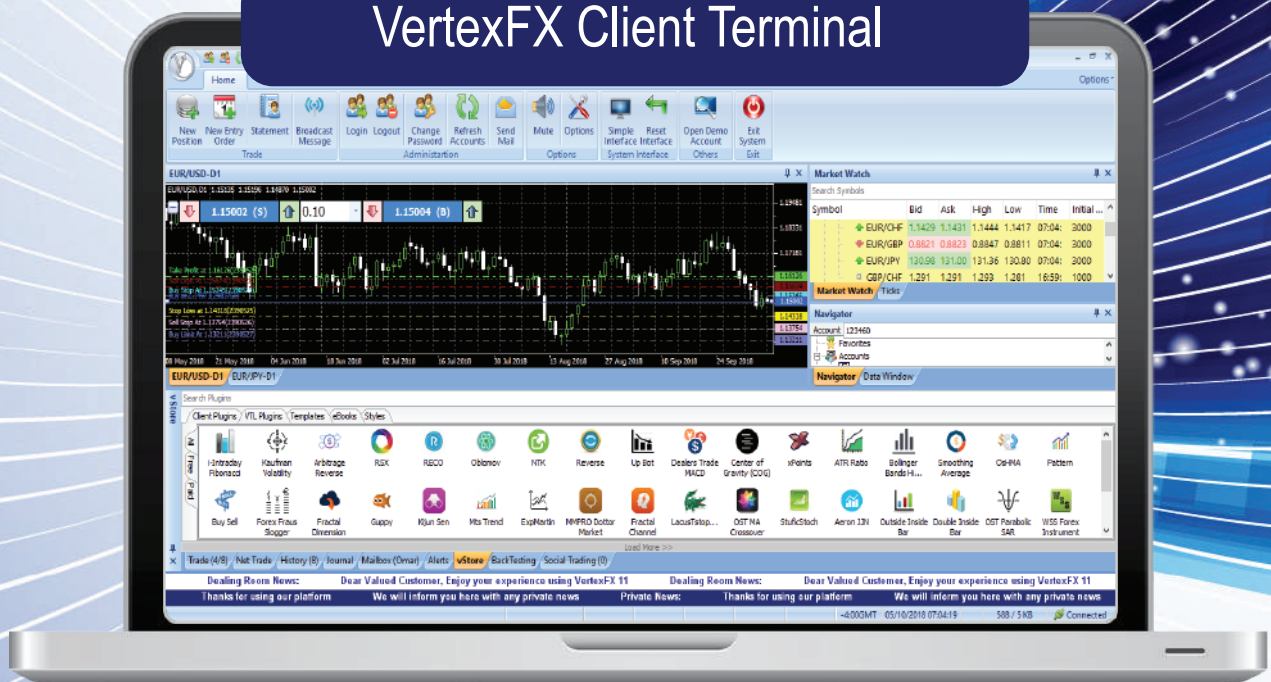

VertexFX Platform Modules

VertexFX Backoffice

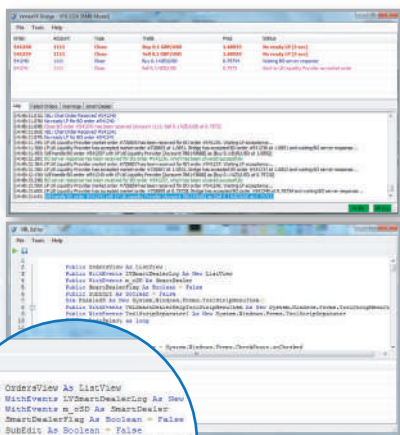

Multi-Level-Management (MLM) allows you to control all your clients' parameters by one click to save time and effort and offers you a wide range of reporting to keep an eye on your clients/IBs.

VertexFX Client Terminal

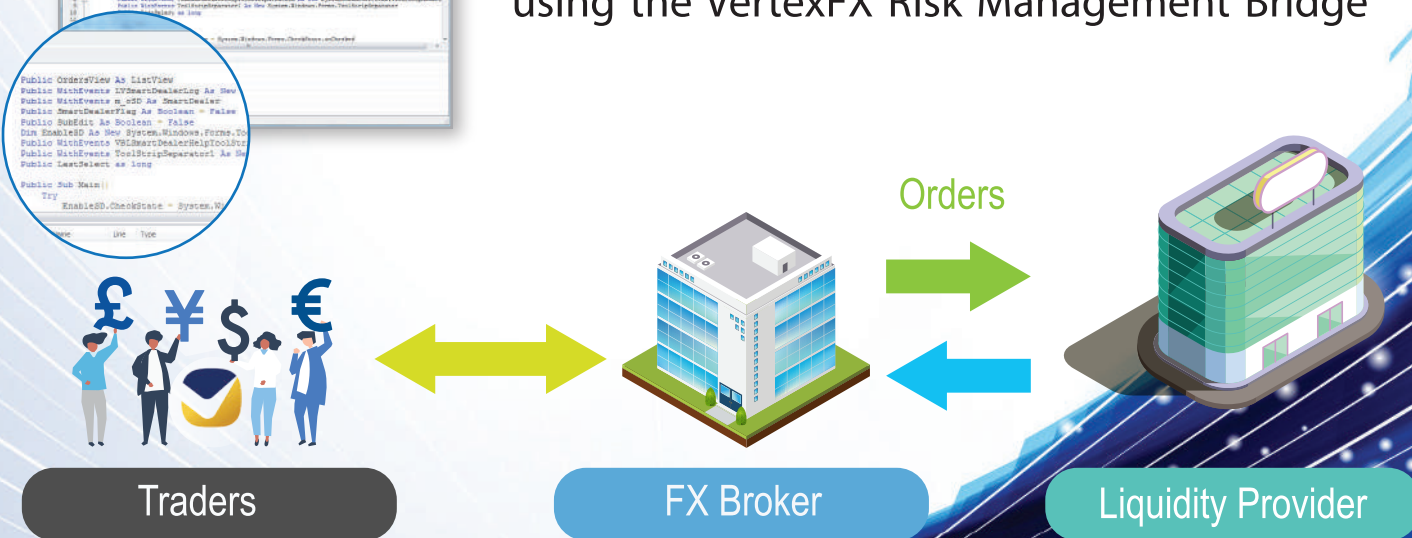

VertexFX features advanced trading process in a fast and friendly user interface. Powered by advanced features as NET Trade, Close All, One Click Trading Screen and Auto Trading Capabilities. VertexFX Traders is the preferred trading platform by millions of traders.

VertexFX Risk Management Bridge

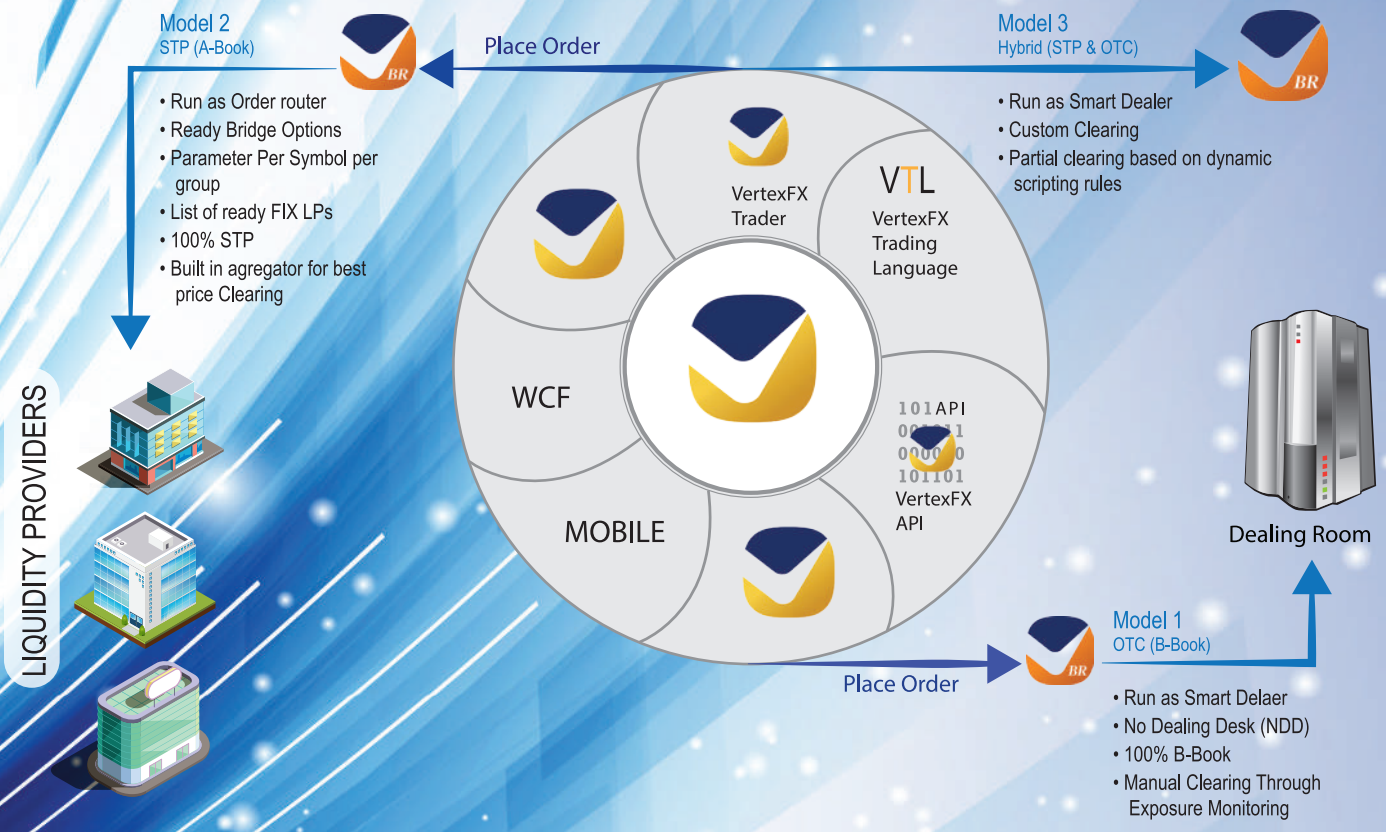

Connect your VertexFX to Liquidity Providers (LPs) of your choice, whether they have VertexFX or not to reach the less or almost Zero risk to your business. Clear all your clients' positions automatically and rapidly using the VertexFX Risk Management Bridge

VertexFX Bullion Solution

CONNECTING YOUR BULLION BUSINESS TO VERTEAFX RESOURCES YOU NEED

Hybrid Solutions has endeavored to set-up Bullion Market through the VertexFX platform in order to simplify the bullion trading. As the market of any product is open, many will have the chance to buy the wrong product or commodity. Many have argued that having an account in gold and other precious metals in paper/certificate will be blown up with the physical bullion market.

BULLION MARKET TRADE LIFE CYCLE

When you join the VertexFX bullion users' network, you will witness a different trading technology, your vision of Buy and Sell icons buttons will not remain the same, you will experience a state of art, built over high standards of the ease of use philosophies, attractive on the style, creative on the idea, new on the functionalities, different on the layout, easier for use and efficient on time management.

Here is how the bullion trade cycle goes:

- ▶ Double click on the desired symbol from the market watch.
- ▶ Set your order amount and start buying positions.
- ▶ You will see your open positions in the Trade Panel
- ▶ To deliver the positions go to the Net Trade Panel.
- ▶ Right click on the desired symbol and choose "Delivery".
- ▶ Choose the office you want to pickup your product from.
