About Hybrid Solutions

Hybrid Solutions is a leading provider of advanced trading technology that was established in 2002, and is the vendor of VertexFX Trader, one of the world's most outstanding trading platforms that was launched in 2005.

We offer comprehensive tools, real-time market data, and reliable trading signals. Our commitment to excellence is reflected in VertexFX Trader's flexibility, security, and exceptional availability across all versions.

With Hybrid Solutions, Brokers gain access to a cutting-edge platform designed to empower their journey, making the financial markets easily accessible, flexible, and exciting for everyone.

CEO Message

Adel Jibrin

At Hybrid Solutions, we are committed to staying at the forefront of trading technology, aligning ourselves with Broker's and trader's needs. As a pioneer in the Foreign Exchange and Financial Derivatives software field, our VertexFX Trader offers an advanced all-in-one solution to partner brokers.

Our goal is to streamline administrative tasks, allowing them to focus on client onboarding and marketing. We continuously listen to Brokers, Traders, IBs, and Technical Analysts, updating our platform to meet their evolving needs.

We are glad to announce that we are expanding from our headquarters in Ras Al Khaimah, UAE, to Jordan, UK, India, Cyprus, and many more countries, aiming to become closer to our clients and make it easy and flexible for everyone to reach us.

Our Mission and Vision

Our Mission

Lead the trading market into a new dimension through sustainable and growth-oriented development. With our customers at the heart of everything we do, they have been our primary focus since day one. We put the power of VertexFX Trader into the hands of our valued customers, actively listen to their needs, and collaborate creatively with them. Throughout our journey, our road map has been filled with continuous developments and version releases, and we take great pride in the incremental steps that have propelled us to the pinnacle of success.

Our Vision

To create a revolutionary Solution in the online trading software industry, by providing our customers and business partners with the most advanced and reliable technology VertexFX Trader.

Our History

Why Choose Us?

At Hybrid Solutions, we empower traders and financial institutions with the most advanced and reliable trading technology.

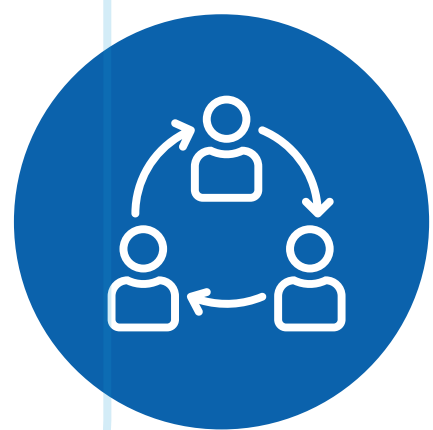

- ◆ **Established Experience:** Since 2002, we bring unmatched industry experience.
- ◆ **Trendsetting Innovations:** Stay ahead with continuous platform updates.
- ◆ **Seamless Mobile Trading:** Trade effortlessly on iOS and Android devices.
- ◆ **Efficient BackOffice:** Streamlined tools for smooth operations.
- ◆ **Effortless Integration:** Easily connect to external systems with API Tool Kit.

Our Services

BackOffice Modules

Our BackOffice Modules serve as the central management system, connecting all clients and offices seamlessly. It facilitates quote requests and bidding processes, whether it is in the market maker or the Bank dealing room. Through this platform, continuous requests from clients connected to the BackOffice dealing room are efficiently managed.

Client Modules

Our Client Modules encompass desktop and mobile applications for both iOS and Android. These modules empower traders to engage with a specific Dealing Room, enabling seamless and efficient trading experiences.

Server Applications

Our range of server applications are hosted on one or more servers, ensuring robust and reliable performance. As the trading landscape evolves, we continuously adapt to the changing business models. Beyond the traditional forex model, we have developed new modules in VertexFX to keep pace with the dynamic market.

VertexFX Trader

VertexFX Trader is a cutting-edge trading platform designed to cater to the needs of both Brokers and Traders. With a variety of powerful features and user-friendly interface, VertexFX Trader empowers you to take your business to new heights.

VertexFX Client Terminal

1. **Intuitive UI:** Seamless and easy-to-navigate trading journey.
2. **Advanced Charting:** Analyse market trends for informed decisions.
3. **Multi-Asset Trading:** Trade Forex, CFDs, stocks, and more.
4. **Automated Trading:** Efficiently execute strategies with expert advisors.
5. **One-Click Trading:** Swiftly enter and exit trades with a single click.

VertexFX BackOffice Module

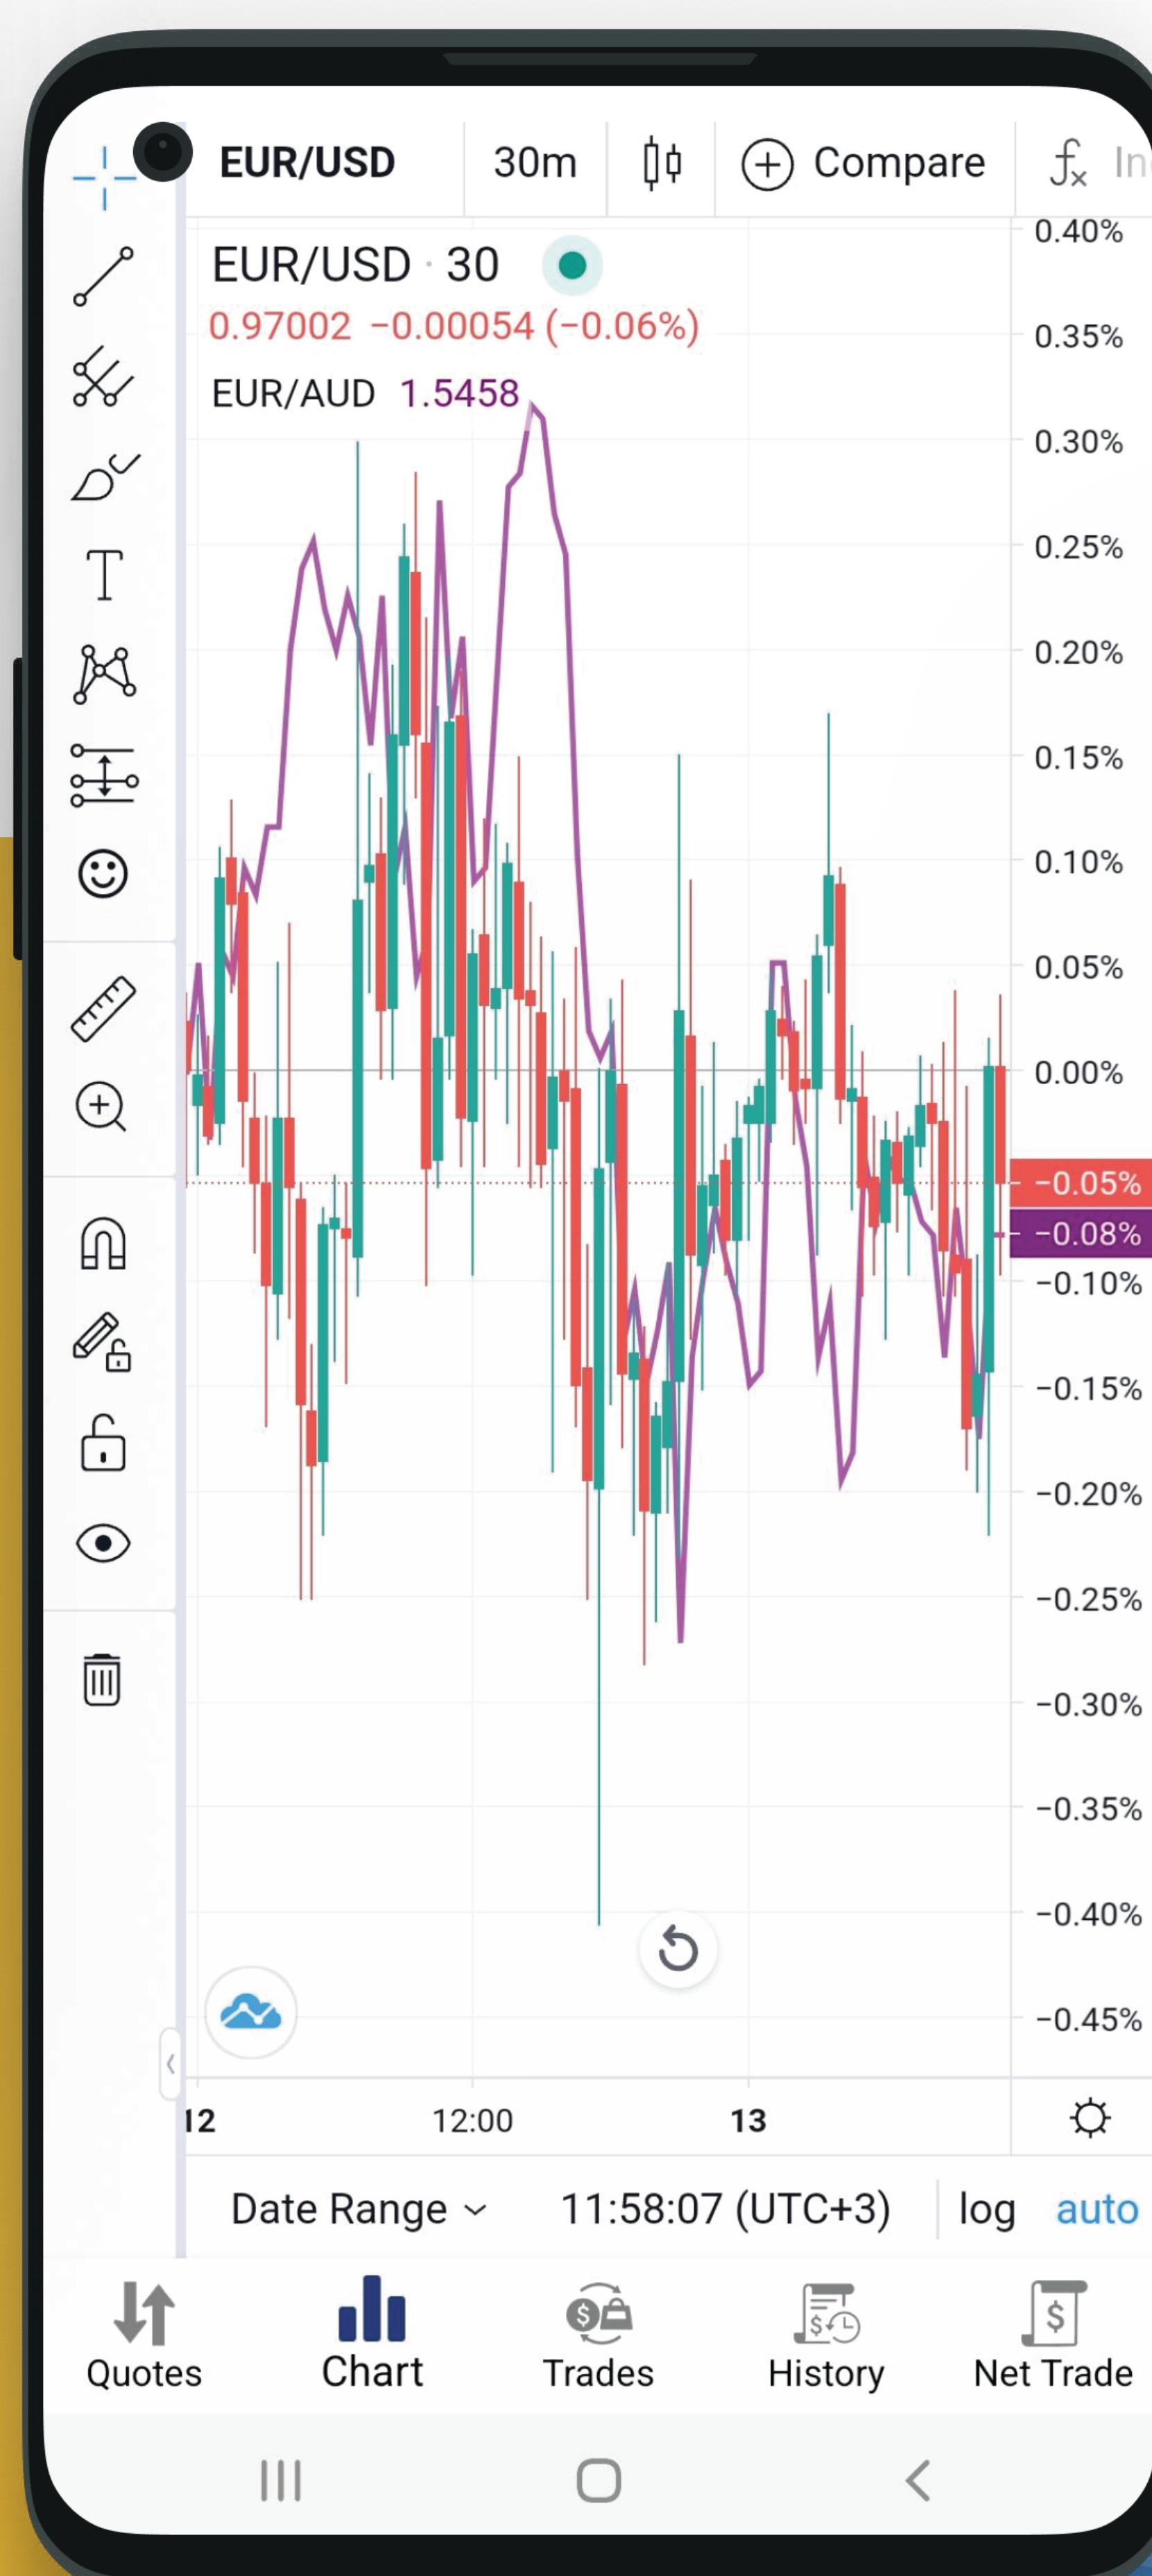

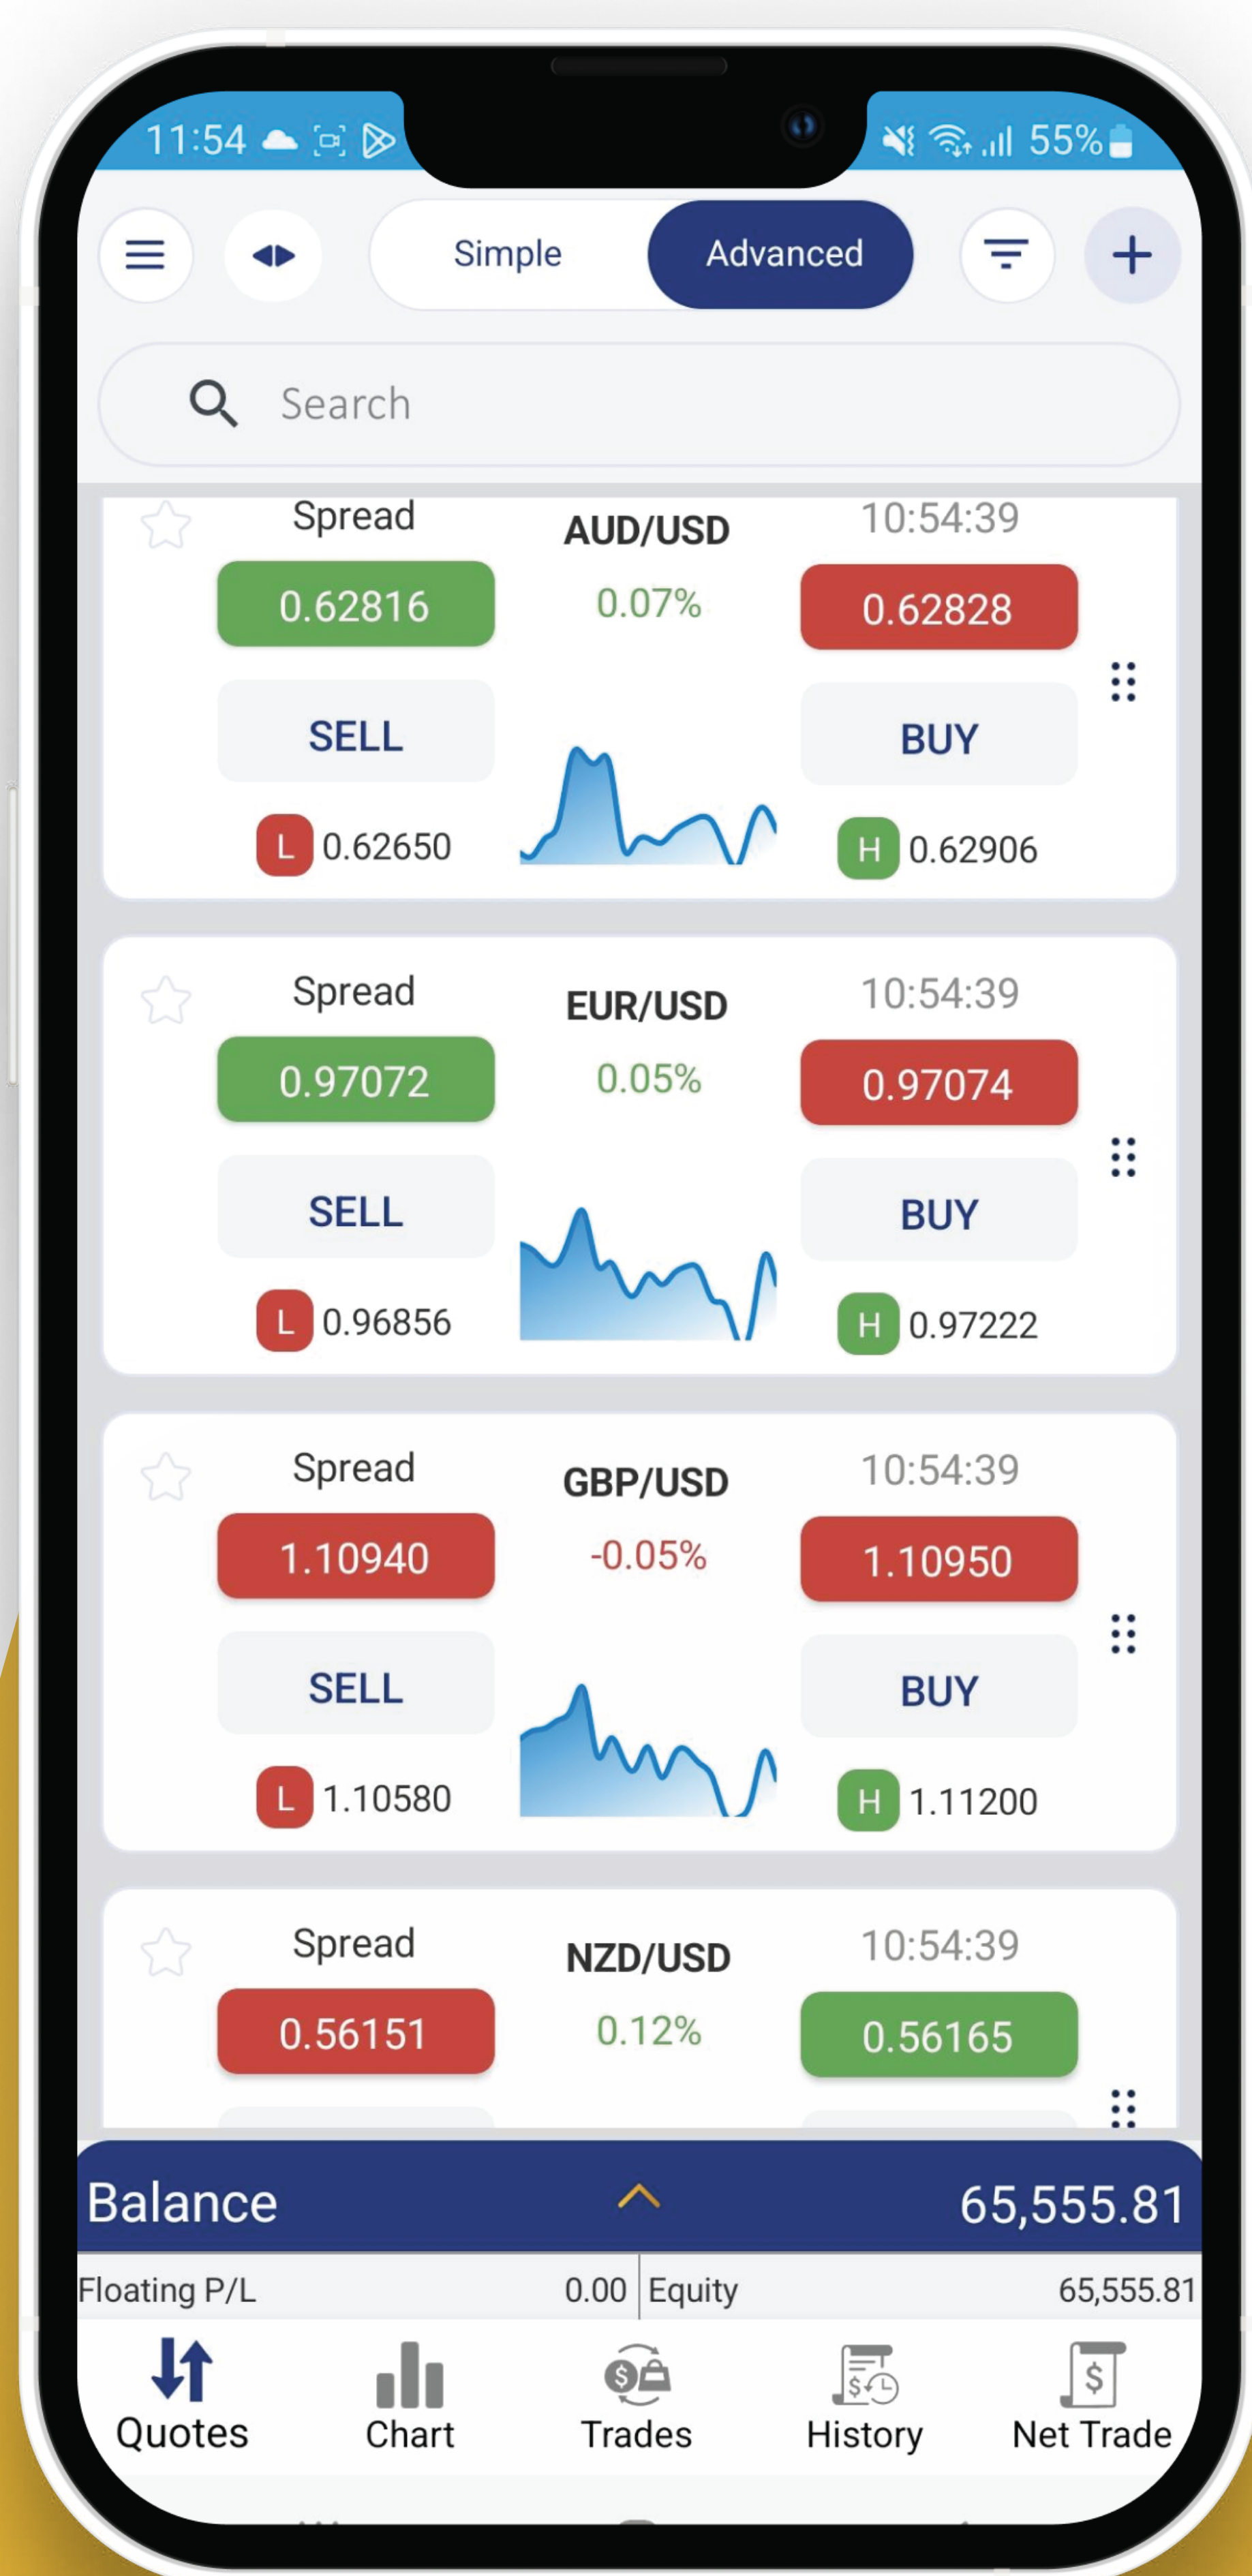

1. Robust tree structure for efficient operations.
2. Multi-level management for secure control.
3. Comprehensive reporting for business insights.
4. Customisable parameters for competitive offerings.
5. Advanced risk management.
6. Enhanced options management for client needs.

VertexFX Mobile Trader

VertexFX Mobile Trader empowers traders to stay connected to the financial markets on the go, offering a seamless and user-friendly mobile trading experience. With the convenience of the VertexFX Mobile app, traders can access their accounts, monitor real-time market data, execute trades, and manage their positions anytime, anywhere.

The mobile platform provides comprehensive charting tools, technical analysis indicators, and Customisable layouts. VertexFX Mobile Trader ensures that traders never miss a market opportunity and can respond swiftly to changing market conditions.

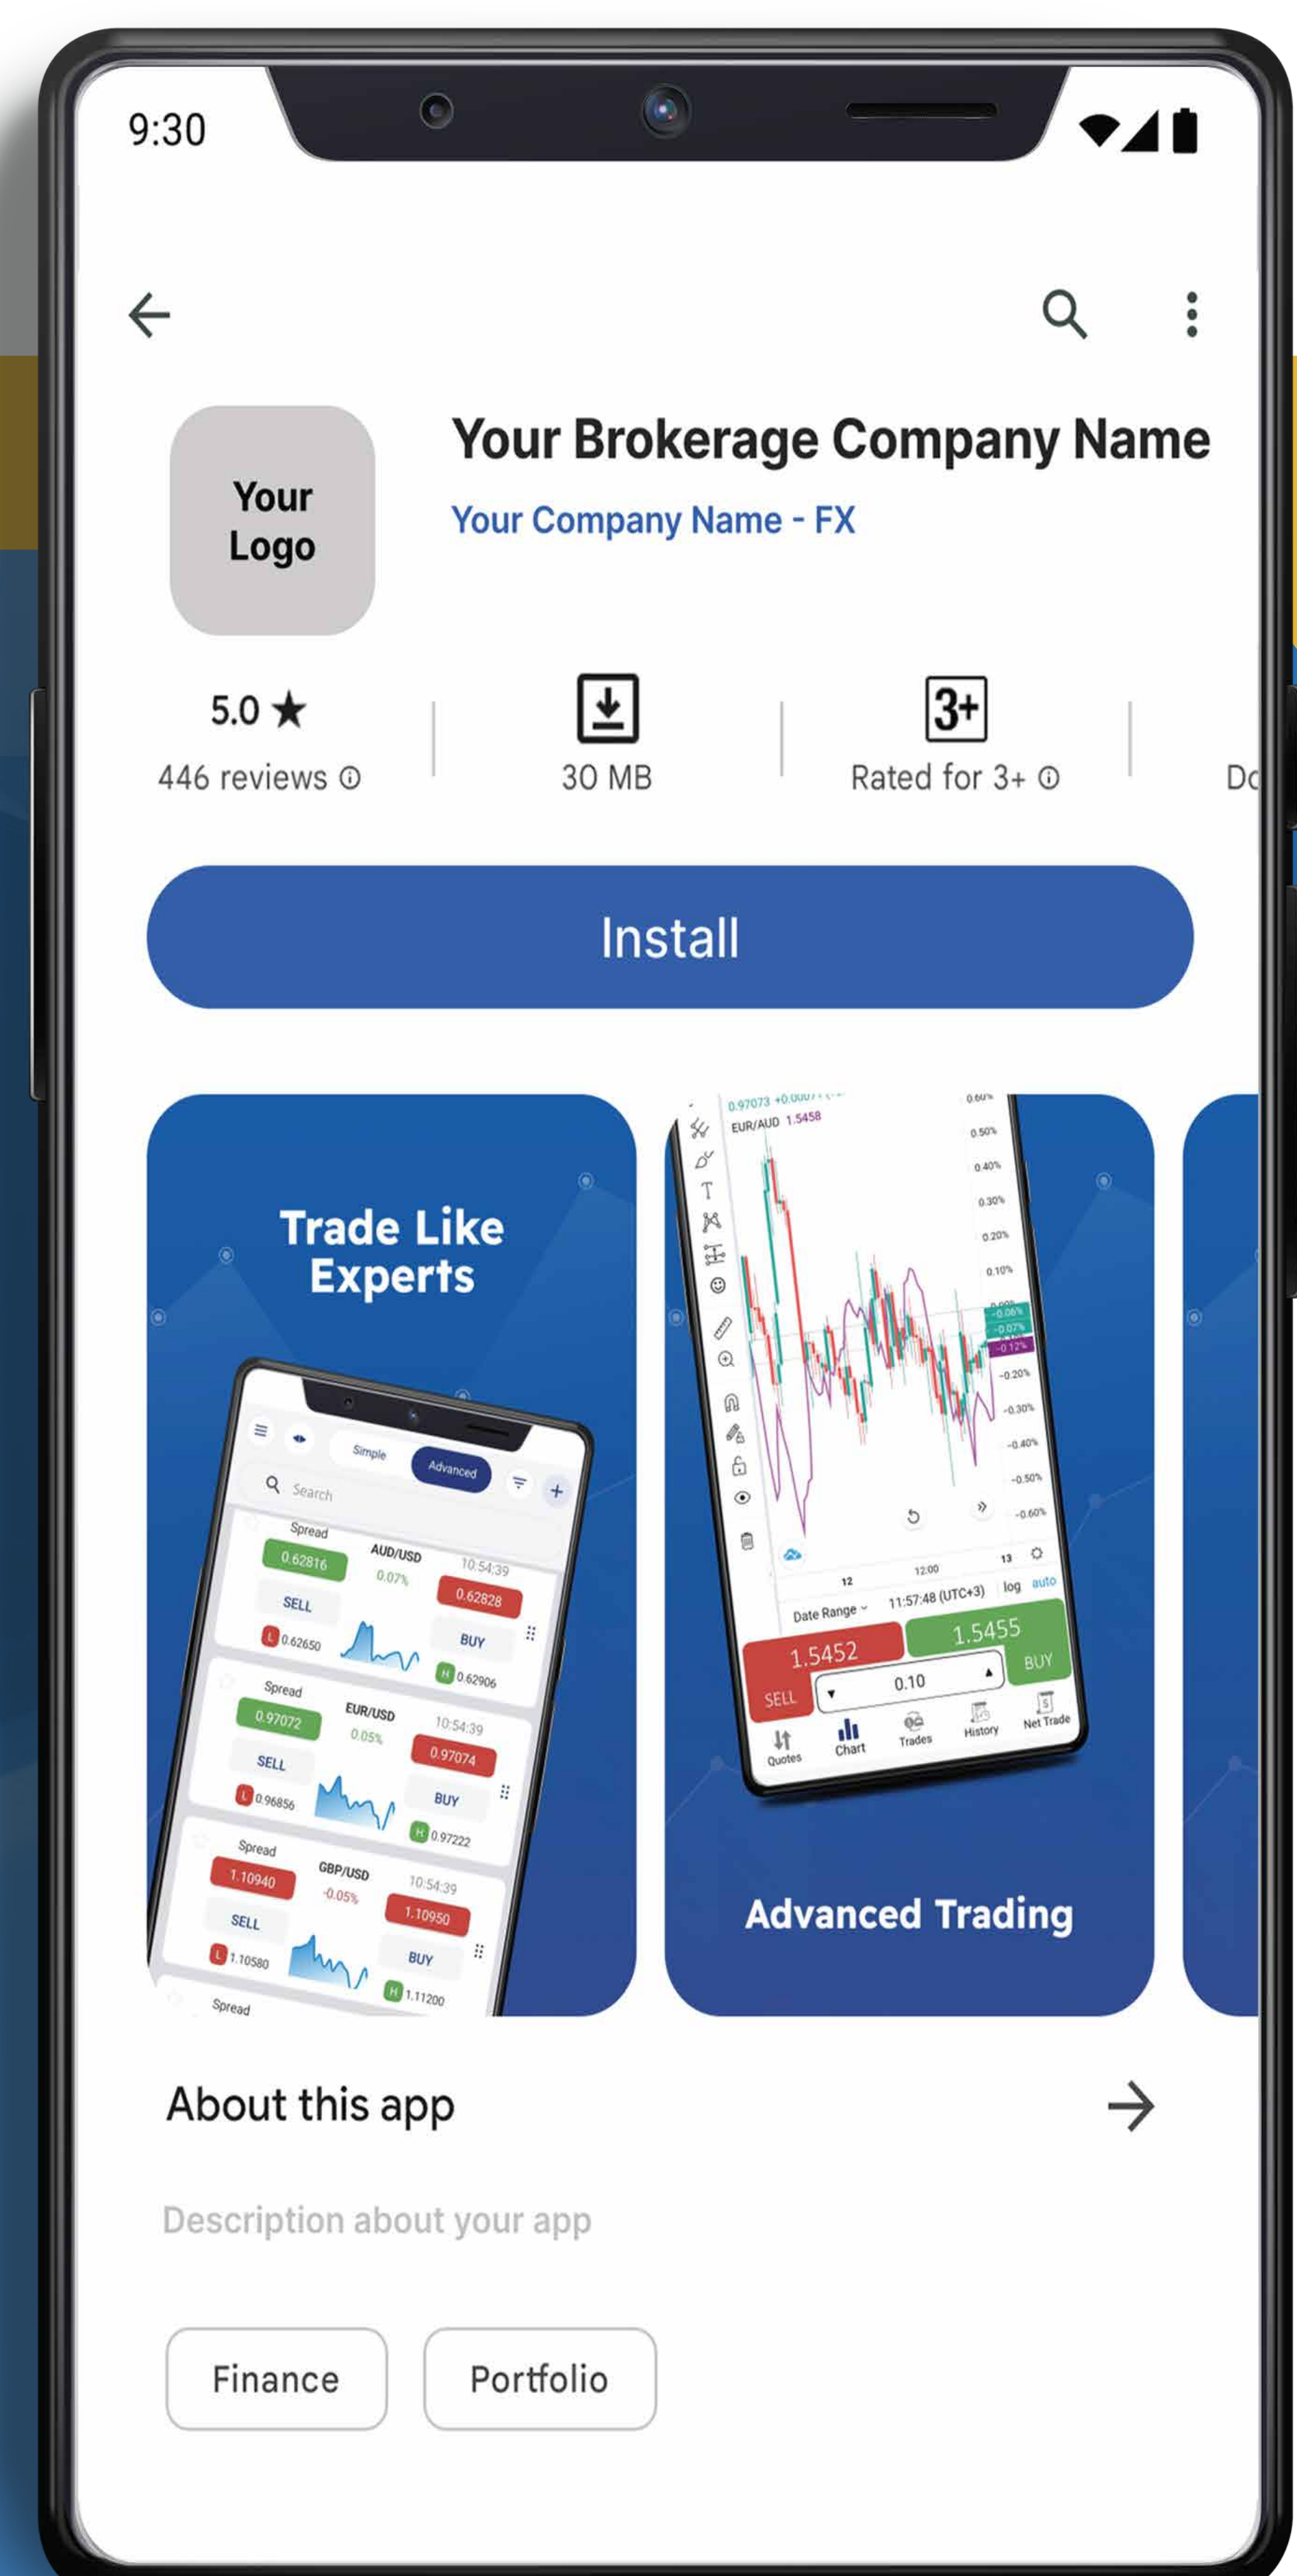

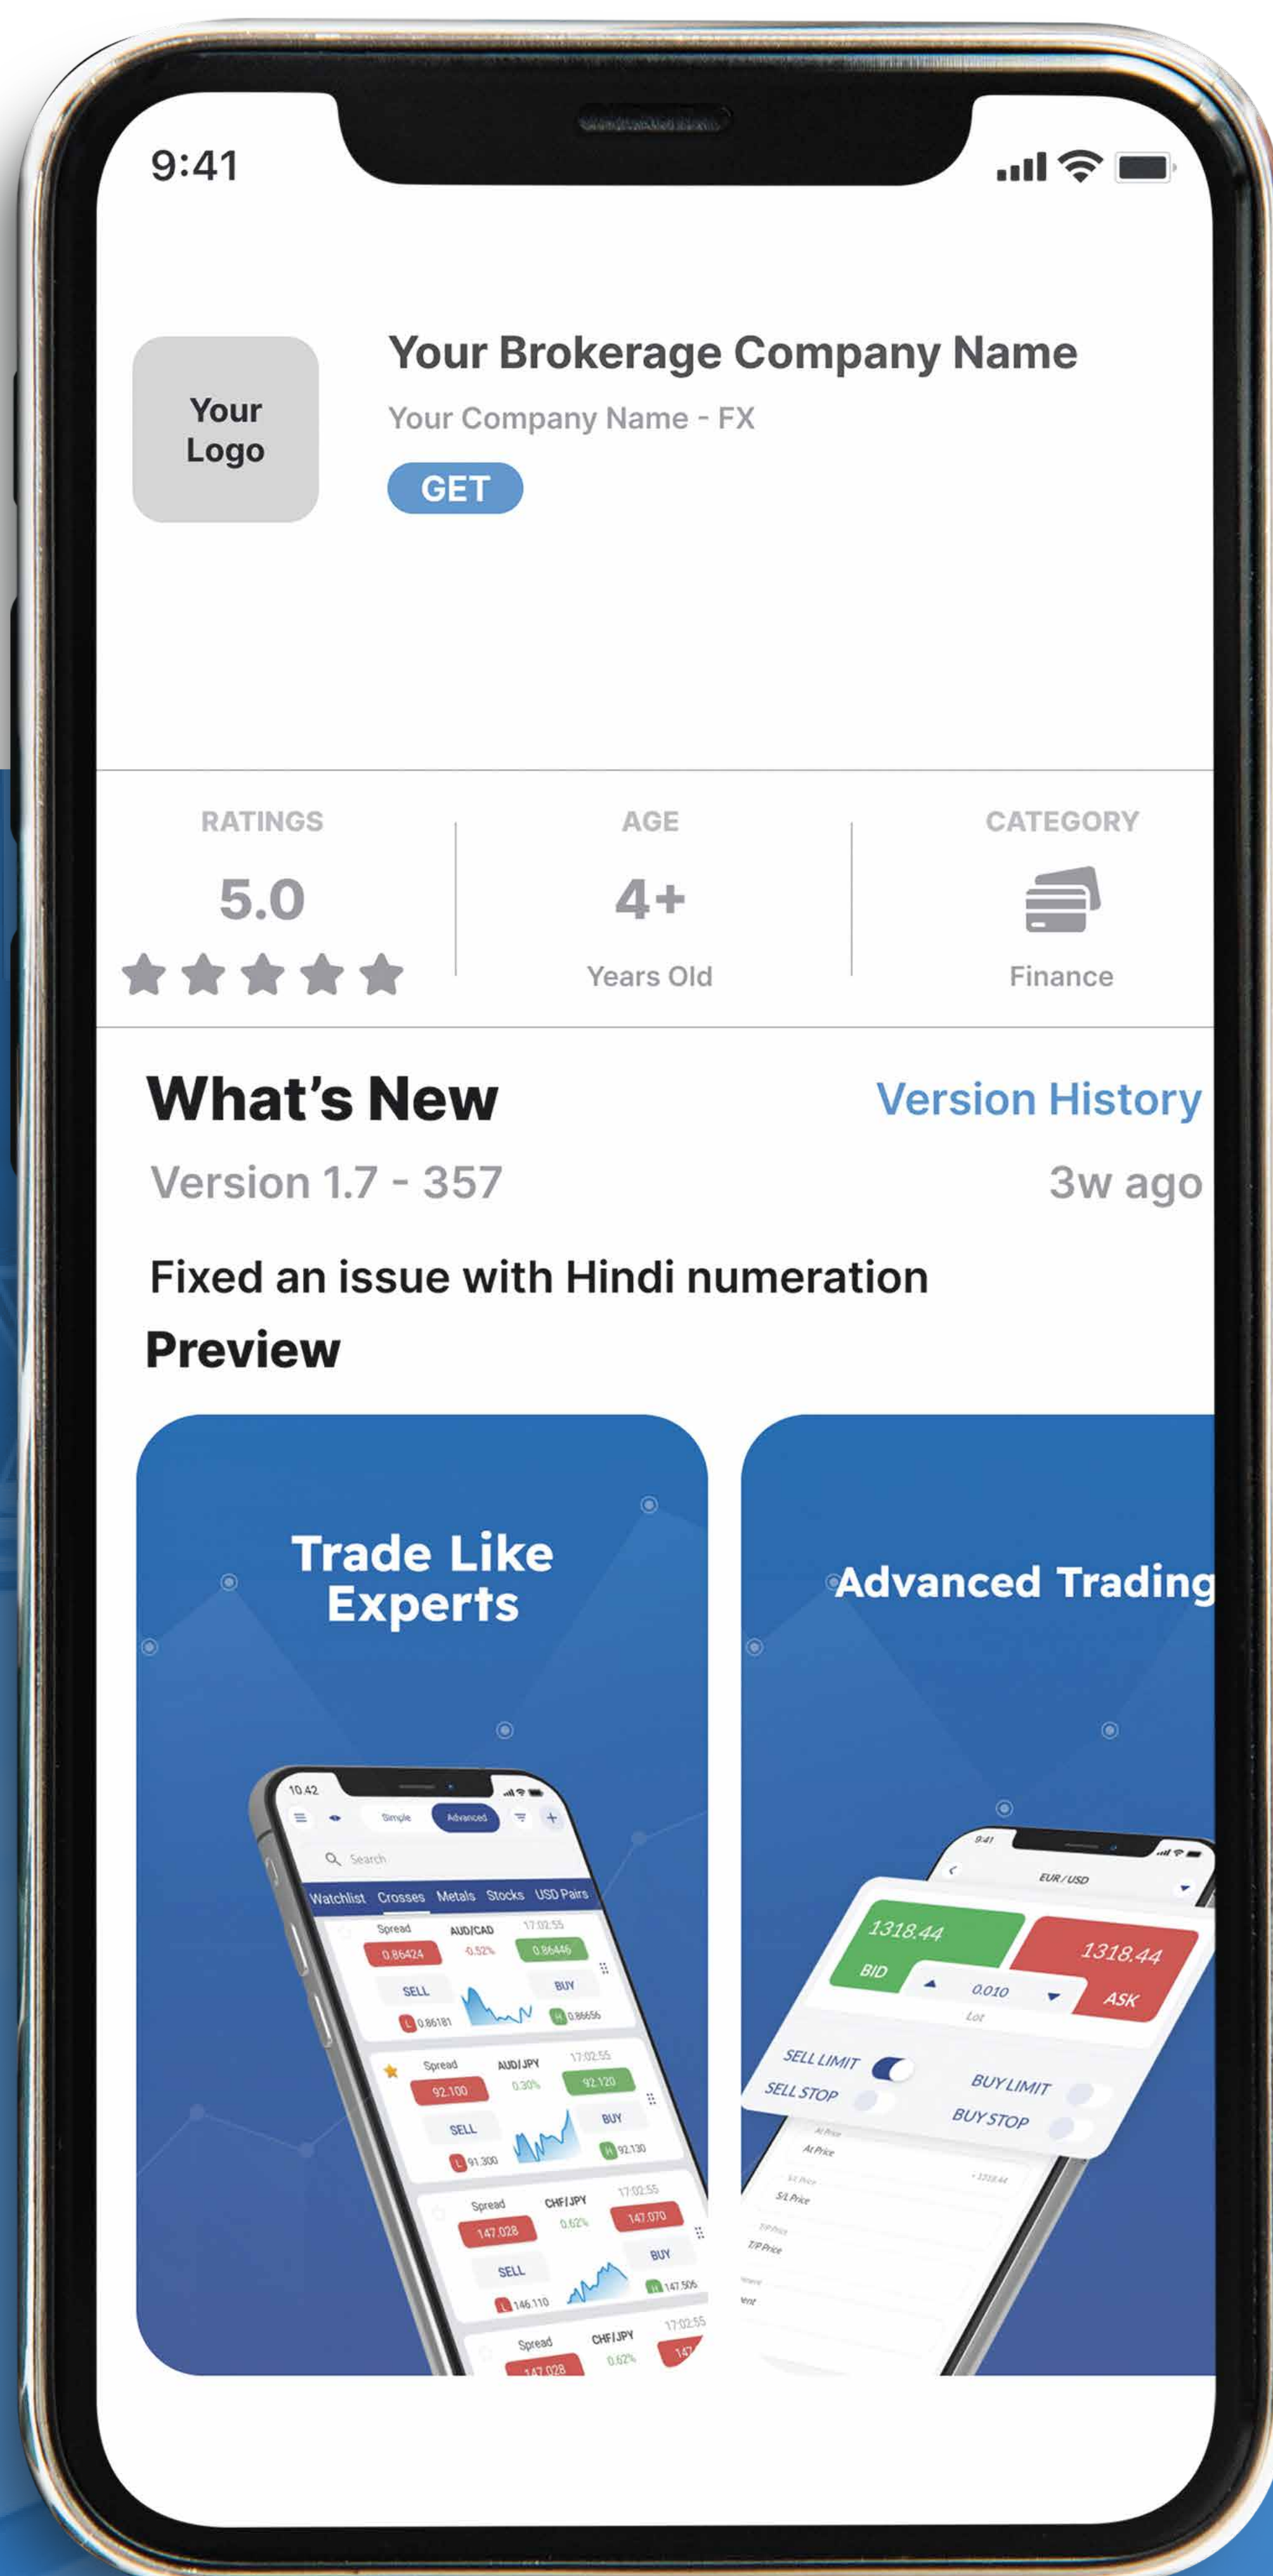

Maximise your Exposure Opportunities with VertexFX Standalone Mobile Application

Branded Experience

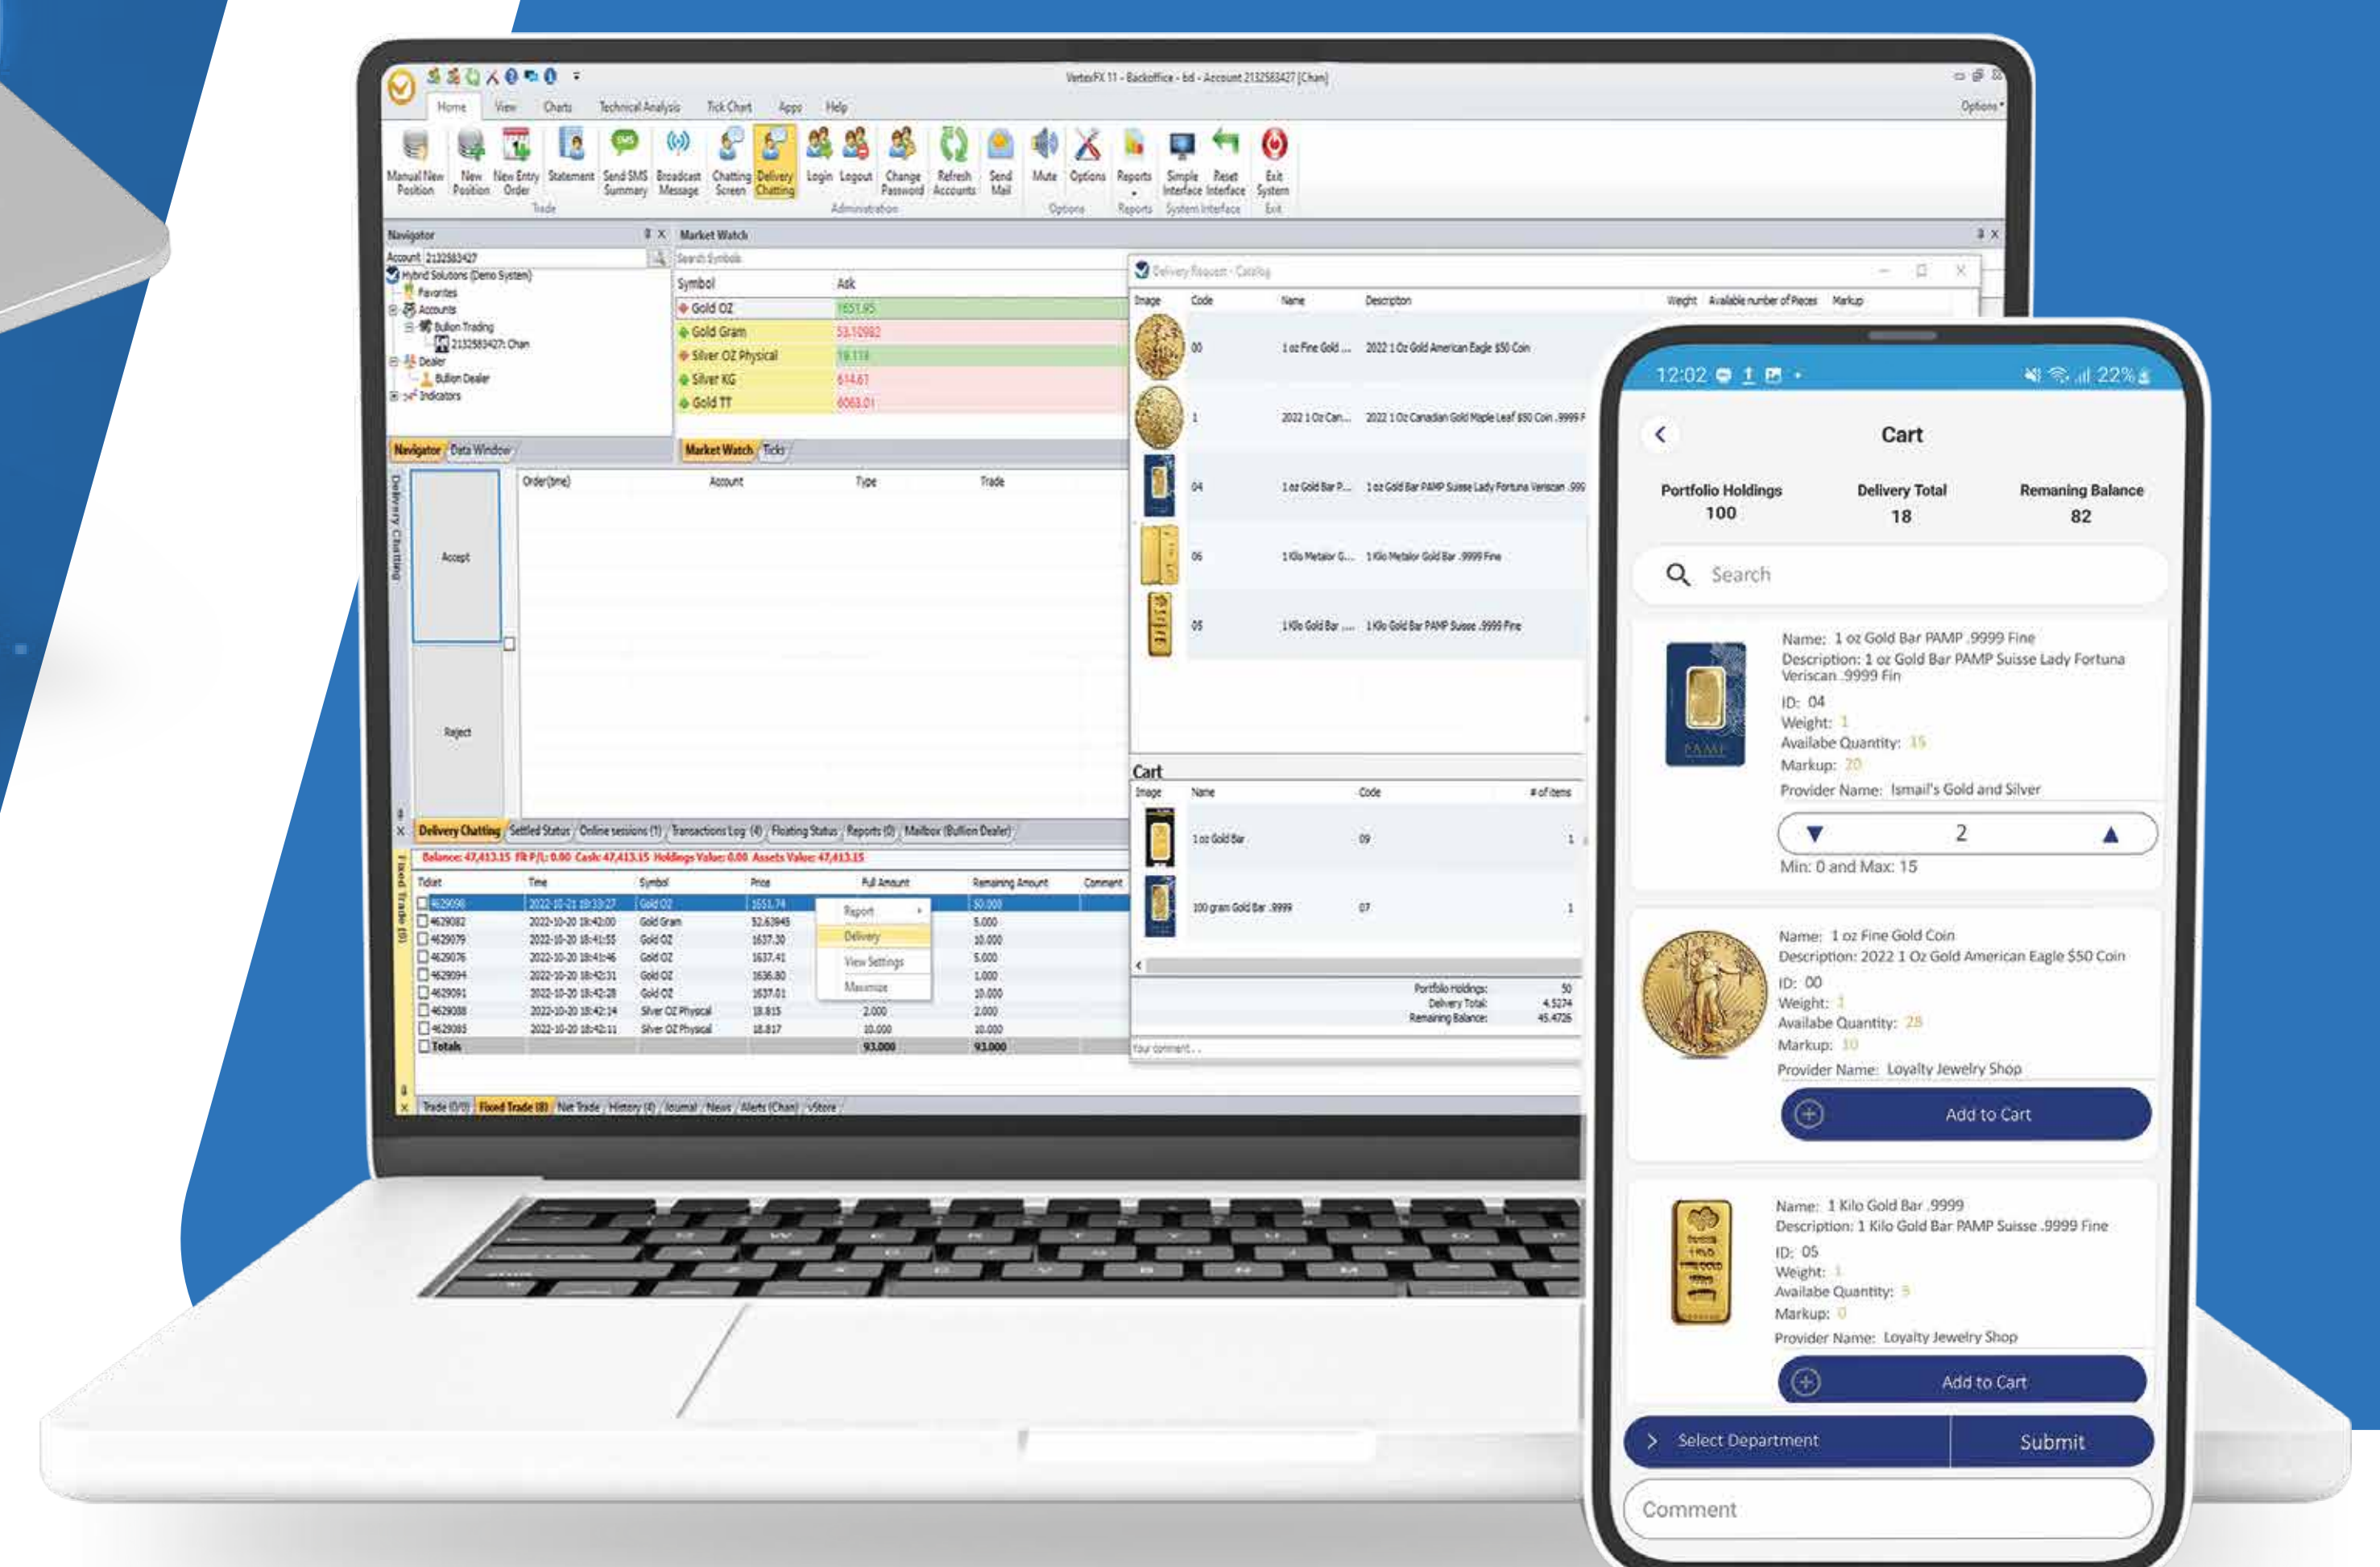

The VertexFX Branded Mobile experience offers brokers a powerful and strategic advantage in the competitive financial industry. By displaying their company's name and logo brokers enhance brand recognition, building trust and credibility among their clients.

This Personalised mobile platform serves as a direct channel of communication with clients through push notifications, allowing brokers to deliver tailor-made market updates, trading signals, and important announcements in real-time.

VertexFX Social Trading

VertexFX Social Trading is a service that allows VertexFX traders to follow VertexFX signal providers and copy their trades. It requires minimum or no knowledge of financial markets. VertexFX traders can follow a successful VertexFX signals provider, considering the percentage of profitable operations and the diversification of the financial instruments traded.

VertexFX Bullion Trading

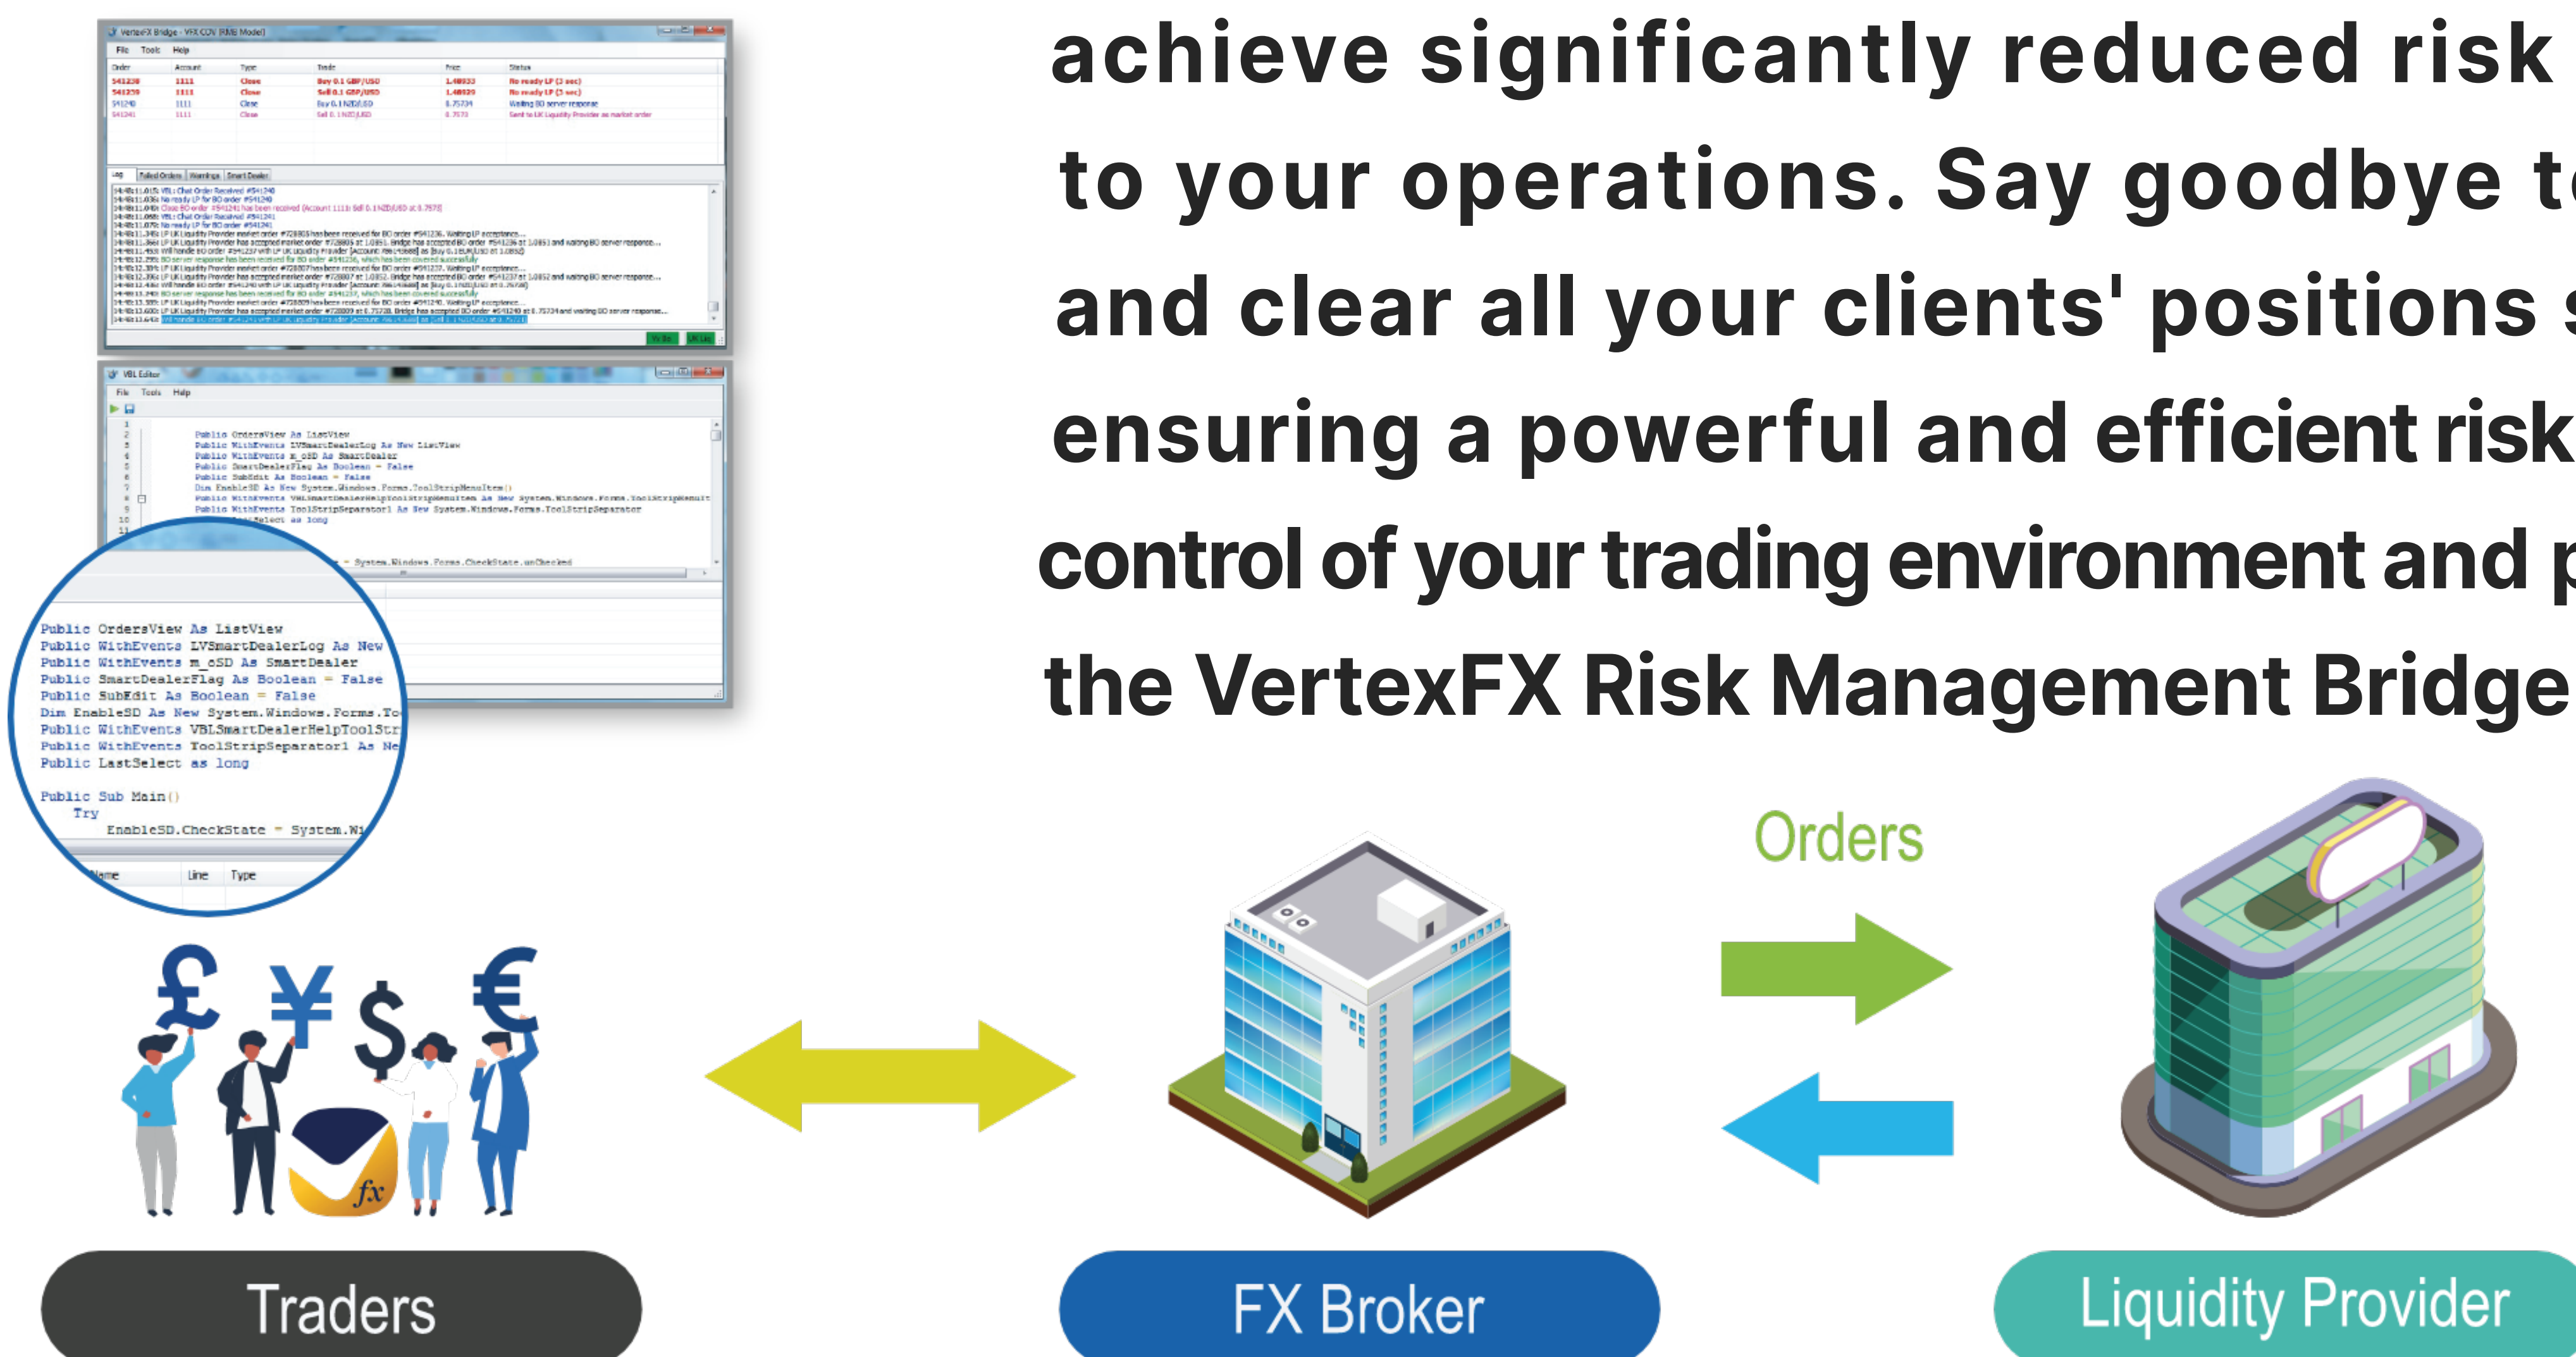

Recognising the complexities of the bullion market, Hybrid Solutions aims to offer seamless trading experience. With two bullion trading modules - Buy Only and Buy Fixing. Traders can now buy and deliver specific items at the same price they were purchased, whether they choose immediate or future delivery.

Whether using the client terminal or the VertexFX Mobile app, traders can execute bullion trades with ease and precision.

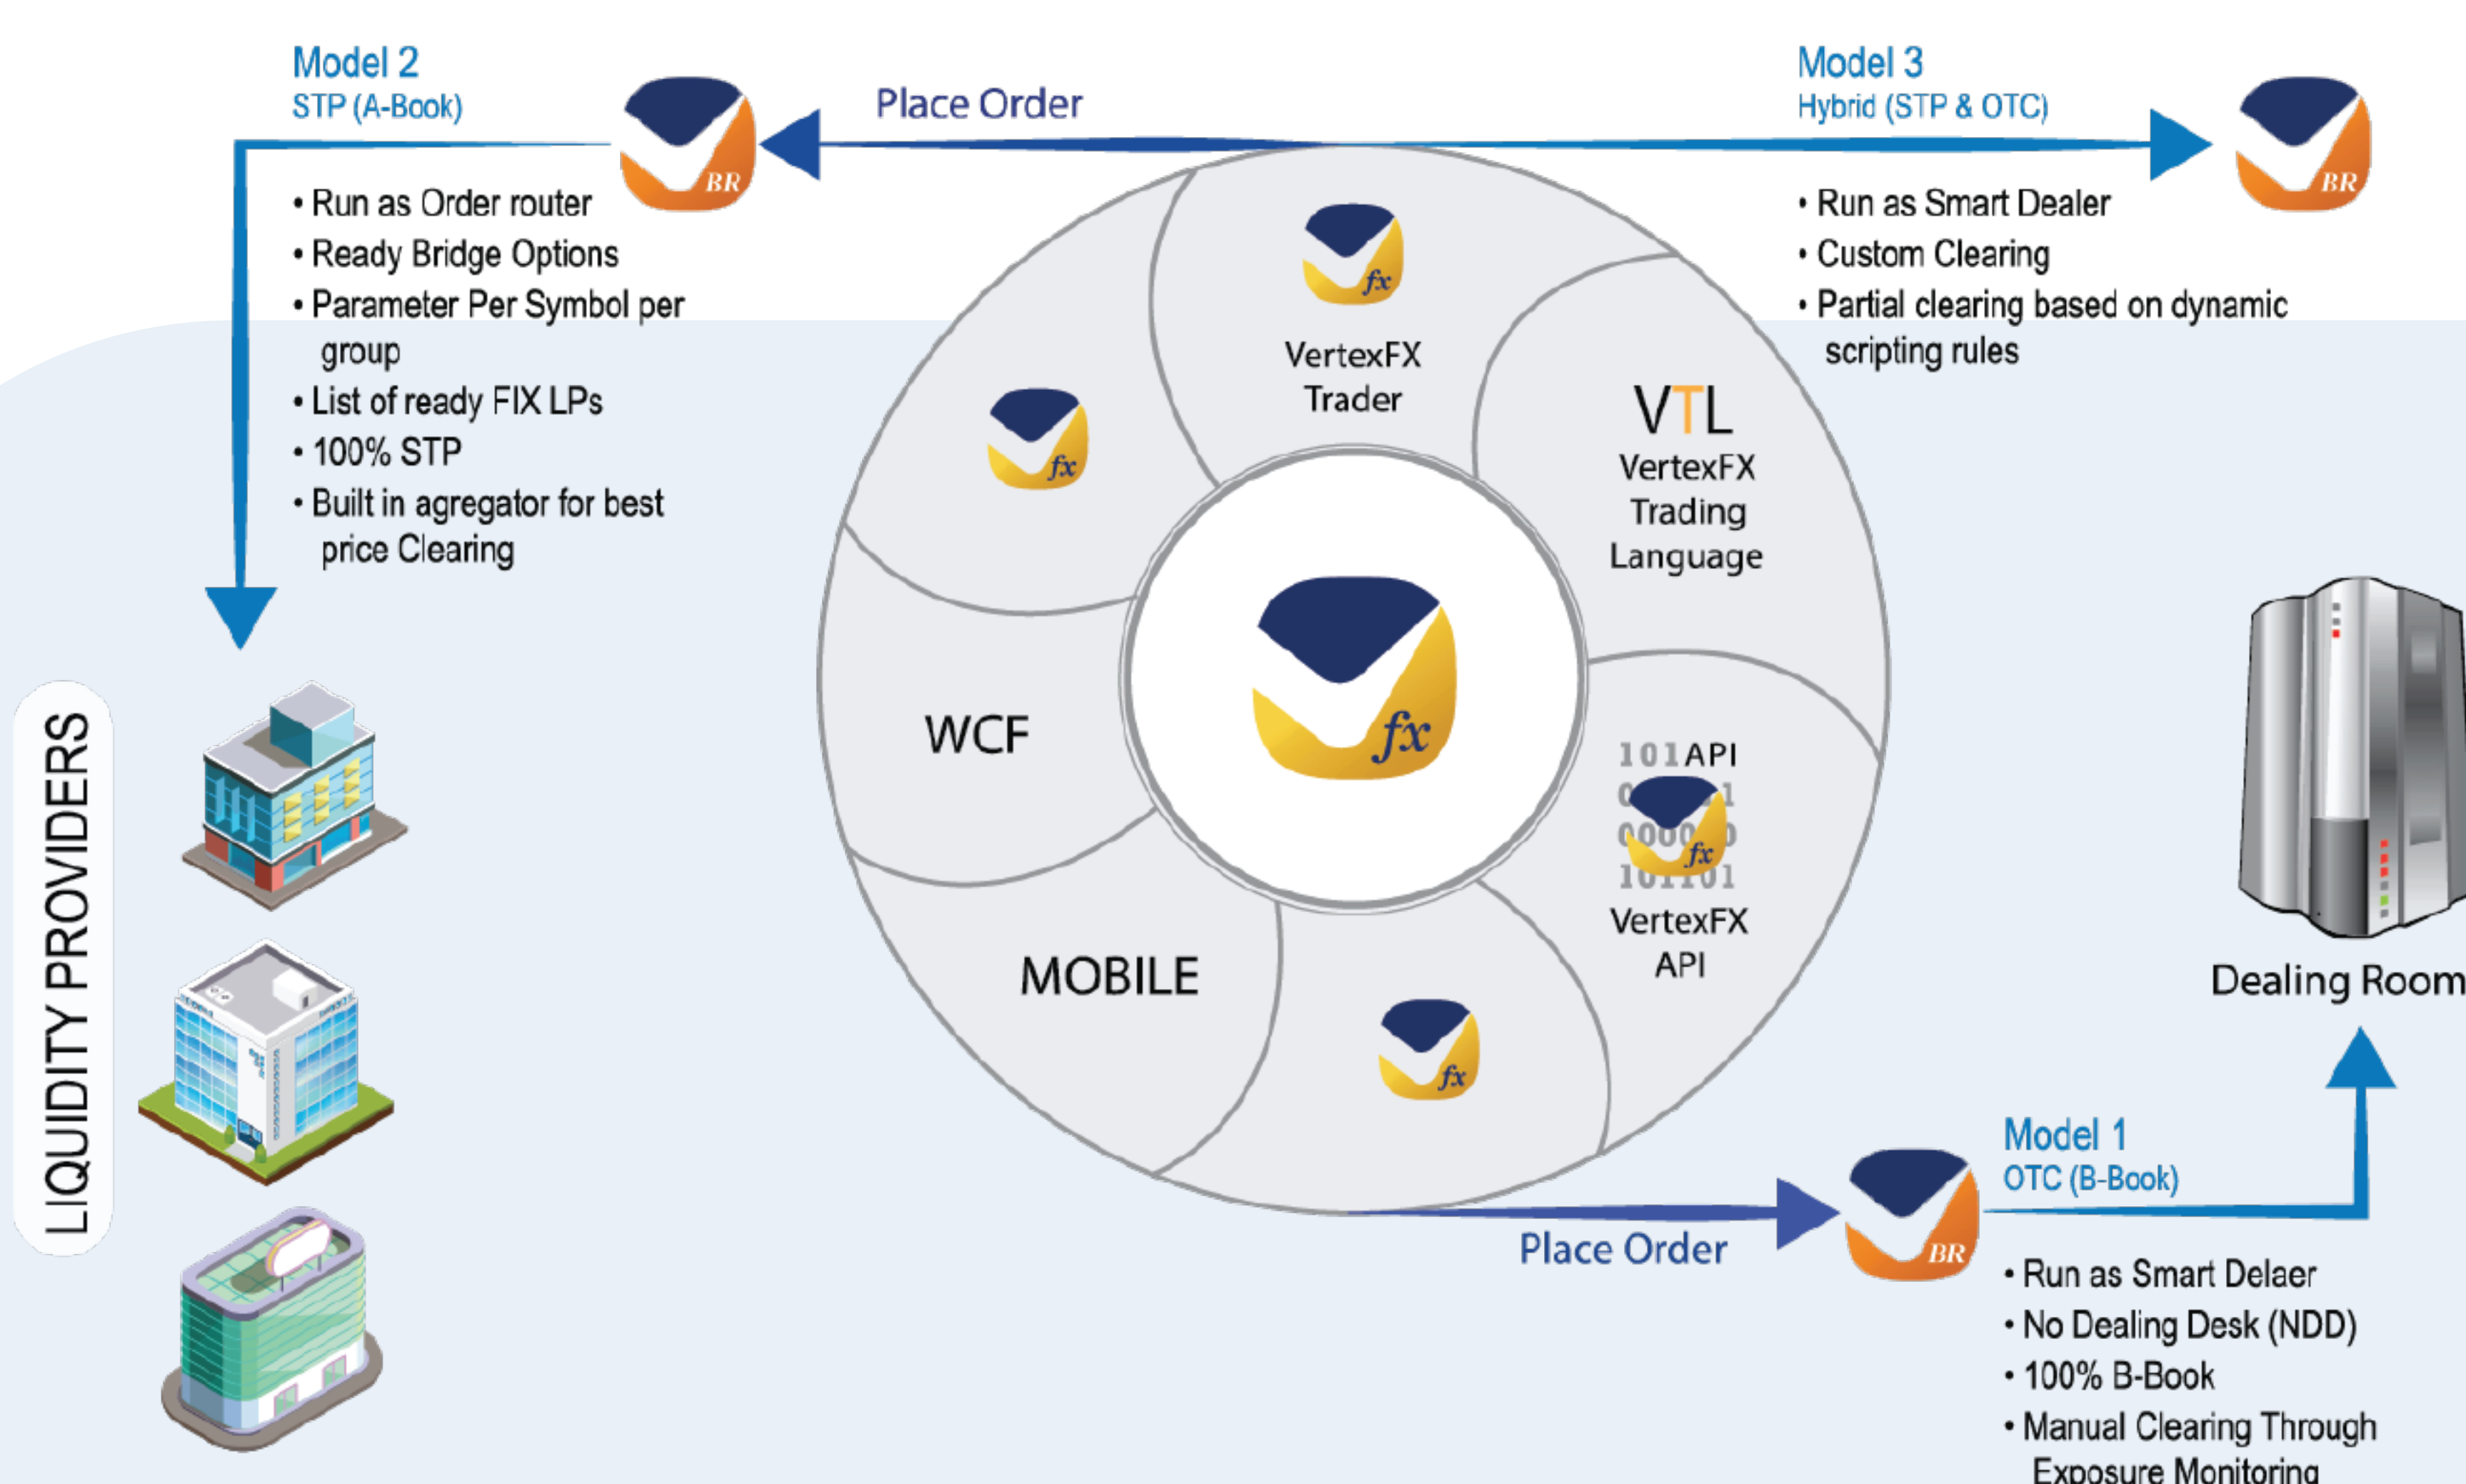

The VertexFX Risk Management

Seamlessly connect your VertexFX Trading platform to Liquidity Providers (LPs) of your choice, regardless of whether they use VertexFX or not. With this powerful bridge, you can

achieve significantly reduced risk or even near-zero risk to your operations. Say goodbye to manual intervention and clear all your clients' positions swiftly and automatically, ensuring a powerful and efficient risk management process. Take control of your trading environment and protect your business with the VertexFX Risk Management Bridge.

VertexFX API Tool Kit

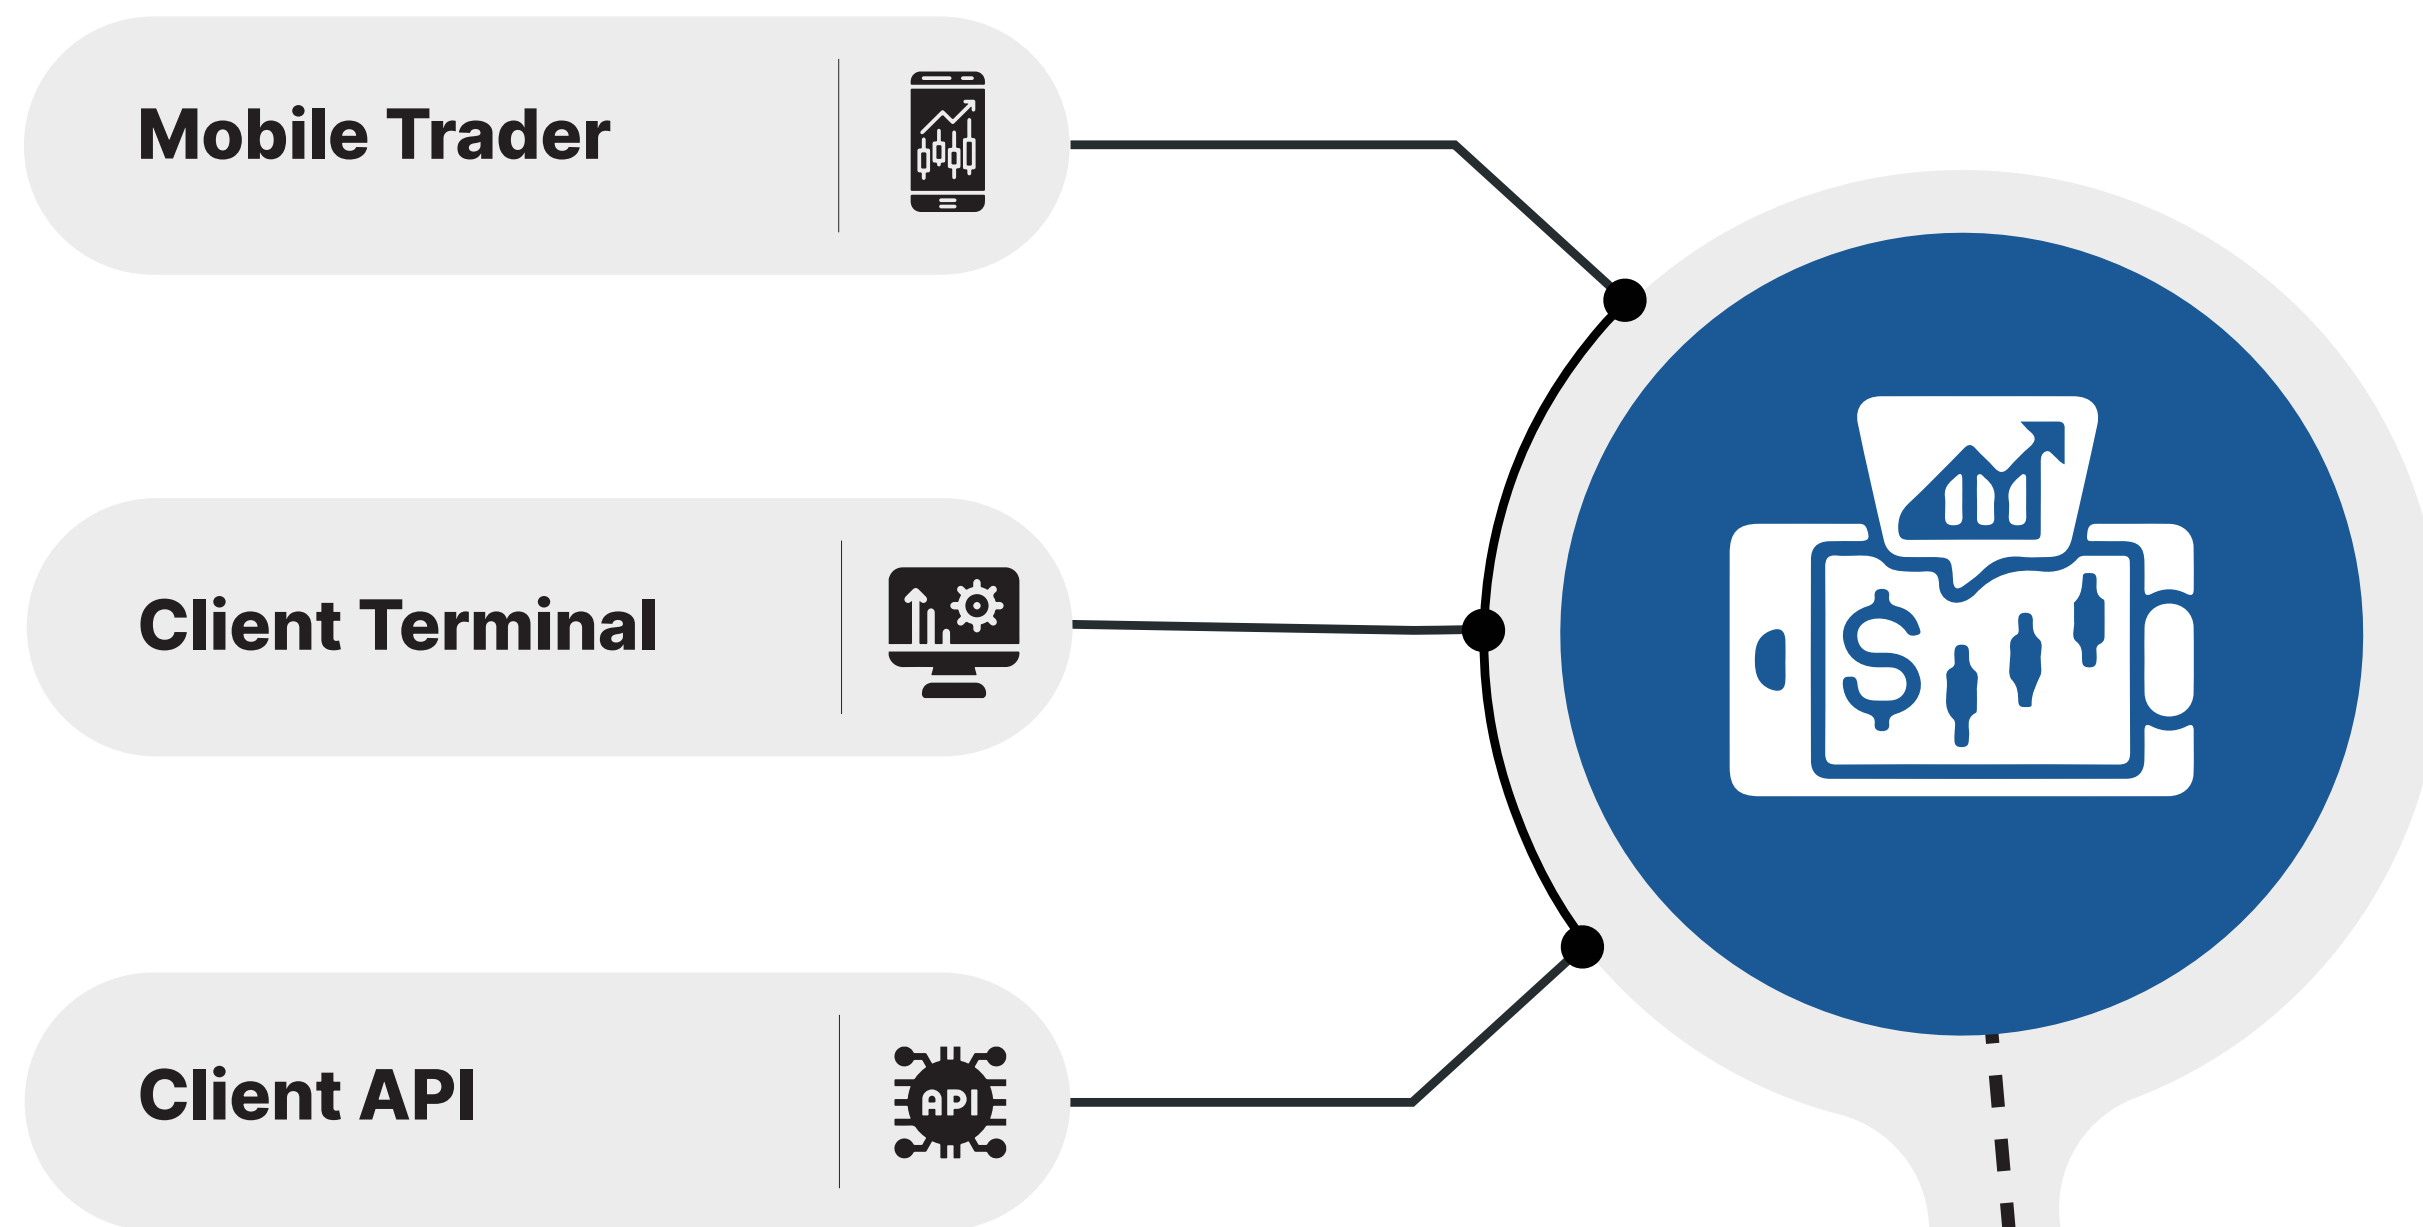

- VertexFX Client API
- VertexFX BackOffice API
- VertexFX Currency Server API
- VertexFX LP API

Our API Tool Kit ensures easy integration, offering an open and user-friendly VertexFX API that effortlessly connects to any application or plugins, liquidity providers, CRMs, and more. With this powerful API Tool Kit, you can easily extend the capabilities of your trading platform and create a tailored solution that perfectly aligns with your business needs.
